Complaint Details

My son is in The Lahore Alma. His school and all other private schools offering A levels charge fee till June. The classes finished in March and without any reason they are charging fee for extra months. whereas the final exams have already started in End April. When we ask them not to charge us for May and June since students have already left school,they pressurize us by saying,we won't issue the school leaving certificate. They are taking at least two months extra fee for no reason.
