Request for Review of My Course Evaluation (Honhaar Jawan Program) Dear Madam, I hope you are doing well. My name is Babar Ali Shah. I am a student of the Honhaar Jawan Program, and I am writing to respectfully request your kind attention regarding the evaluation of my course. I successfully passed my MCQ examination with more than 80%, where the passing requirement was 50%. I also completed my assignment and final project fully according to all the given instructions. In my assignment, I answered all required questions clearly and without using AI assistance. In my final project, I applied all the methods taught in the course, including keyword research, SEO optimization, competitor analysis, and complete Fiverr gig setup. I made sure to follow every requirement carefully and professionally. However, I feel that my work may not have been evaluated fully according to the effort and quality I provided. Despite my hard work, I received 90%, while the requirement for the Honhaar Card is 95%. I humbly request a fair and careful re-evaluation of my assignment and final project. I have attached my assignment and final project in PDF format for your review. I shall be very thankful for your time and support. Yours sincerely, Babar Ali Shah
