Complaint Details

Respected Sir, my name is Yonas Ali and I have been assosiated with divisional public school township branch as a transport service provider for about 20 years, I would like to bring to your attention certain unethical, unnecessary, and negative activites that have been taking place at the school main gate, the guard man named Arif is threatening transport drivers by warning them that he will restrict their access or stop their vehicles if they do not comply with his demands, he is also involved in very inappropriate things including misbehaving with females and harassing them, we have reported this issue to school head many times and everyone knows about his behaviour but no one is taking actions, kindly take actions on this case, thankyou
