Subject: Response to Complaint Regarding Fee Payment and Withholding of Statement of Entry

This statement addresses the complaint regarding Roots International School, DHA EME Campus, and student Maham Mudassir. The school operates under a standardized fee policy where tuition is billed for the full academic session, though parents are offered the flexibility of semester-based installments. This policy is clearly disclosed during the admission process and is applied uniformly to maintain administrative and academic stability.

In this instance, the administration provided the parent with exceptional flexibility, allowing the semester fees to be broken down into monthly or bi-monthly payments to suit their personal circumstances. Despite these accommodations, the account remains in arrears. The school has issued multiple reminders to facilitate timely settlement. Currently, the administration is seeking an amicable resolution through direct engagement with the parent, upholding our commitment to fairness and the student's academic continuity.
