1	05/05/2026	Citizen	District Education Officer (M-EE) Lahore	In-progress	Respected District Education Officer [M-EE], Lahore, With due respect, I would like to submit that the allegations made by the Principal of the school academy are baseless for the following reasons: I have never had any discussion with the school principal regarding this matter to date. Since I have never even met him, the question of demanding any money does not arise. From our side, a complaint has only been filed with the LDA regarding the said building. Apart from your office, no complaint has been registered in any other department, and no case has been filed or is under hearing against them in any court from our side. Therefore, the allegations made by the school principal are merely an attempt to divert attention and mislead the concerned authorities. This complaint has not been filed due to any personal grudge or enmity, but purely in the public interest, particularly for the safety of children and the residents of the locality. The said building is unsafe and poorly constructed, due to which my house has already suffered serious damage. There is a risk of both financial and human loss to children and neighboring houses in the future. I have already submitted evidence in this regard. However, the school academy appears unable to provide the following documents: 1. Approved building plan and structural fitness certificate of the said building 2. Permission/registration from the Education Department for operating a school academy in the said building The use of the said building as a school academy must be duly approved in accordance with all rules and regulations of the Education Department. It is therefore requested that the administration of the school academy be directed to provide all the required documents. If they furnish all such documents in compliance with the rules of the Education Department, and if commercial activity in a residential area is legally permissible, then my application may kindly be dismissed. However, if the administration fails to provide these documents, appropriate legal action may please be initiated against them. Otherwise, we, the affected residents of the locality, shall be justified in approaching the High Court to seek justice. Yours sincerely, [Muhammad Nazir]

We want to inform you that we have received a formal written reply from the Principal of the school you are referring to. According to the school administration's statement, they claim that the complaints filed against their institution are based on a personal dispute and blackmail, alleging a demand of 2,500,000 rupees. Furthermore, the principal stated that the institution's case is already ongoing in court and with the Lahore Development Authority (LDA). If you have anything to say regarding the school's statement, or if you possess concrete proofs that substantiate your claims against their defense, please submit them here.I want to assure you directly and with the utmost respect that your concerns are taken very seriously. Rest assured, if the institute in question is investigated and found guilty under the rules, strict action will be taken against them.Please note that if the required counter-evidence or information is not provided within 48 hours, this complaint will be automatically closed.This action is being taken in accordance with rules and policy.
